(3) Cookies

A cookie is a file containing an identifier (a string of letters and numbers) that is sent by a web server to a web browser and is stored by the browser. The identifier is then sent back to the server each time the browser requests a page from the server. This enables the web server to identify and track the web browser.

We may use "session" cookies and "persistent" cookies on the website. Session cookies will be deleted from your computer when you close your browser. Persistent cookies will remain stored on your computer until deleted, or until they reach a specified expiry date.

We will use the session cookies to: keep track of you whilst you navigate the website; keep track of items in your shopping basket; prevent fraud and increase website security. We will use the persistent cookies to: enable our website to recognise you when you visit; keep track of your preferences in relation to your use of our website.

We use Google Analytics to analyse the use of this website. Google Analytics generates statistical and other information about website use by means of cookies, which are stored on users' computers. The information generated relating to our website is used to create reports about the use of the website. Google will store this information. Google's privacy policy is available at: <http://www.google.com/privacypolicy.html>.

Most browsers allow you to reject all cookies, whilst some browsers allow you to reject just third party cookies. For example, in Internet Explorer (version 9) you can refuse all cookies by clicking "Tools", "Internet options", "Privacy", and selecting "Block All Cookies" using the sliding selector. Blocking all cookies will, however, have a negative impact upon the usability of many websites.
